

WILDERNESS EQUIPMENT COLD SNAP

We are self-confessed fans of the pullover. Whether it's those elements of ruggedness and independence that accompany the style or the simple, clean lines that suggest action rather than relaxation, who knows?

Our classic Cold Snap pullover is ideal as a mid layer for winter hiking, or throw it on over a tee shirt to take the edge off a cool summer evening. Fully featured with a drop hem, quarter zip, and 'real' cuffs, this simple garment is a hard working staple for year around use.

-
