

Wilderness Equipment

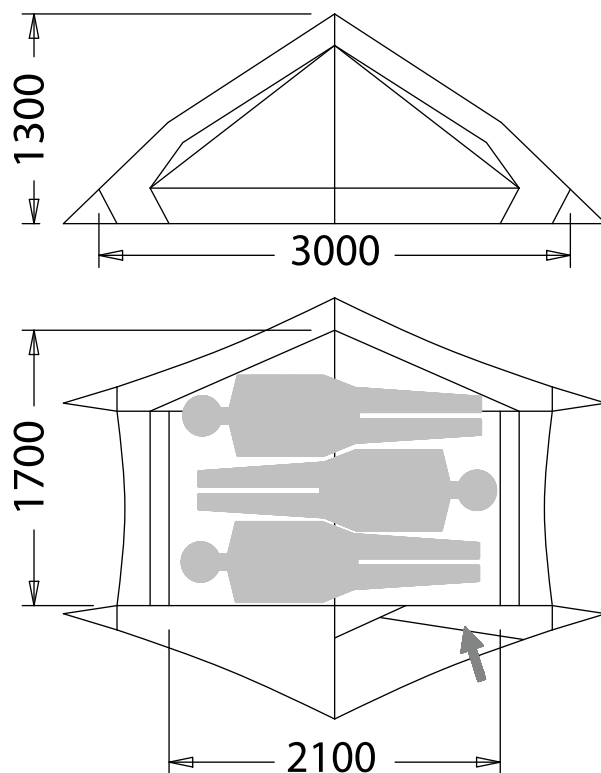

i-SHADOW

Transverse-ridge tent design is something we nailed over 35 years ago. The many imitations of this 4-season, single-pole WE original still don't compare. The i-Shadow's long history, recent consultative development to meet the specific requirements of today's outdoor educators and our insistence on the highest quality materials and fittings are the reasons for this. This simple, single-pole tent is easy to erect, has space for up to 3 persons and a large vestibule for gear. The heavy-duty zips, original easy-maintenance features and superior fabric coatings set this tent up for the longest possible service life.

SPECIFICATIONS
